Subject: Written Comments "Vacation Rental License transfer from one STR owner to another STR owner"

EXTERNAL: This message originated outside of the City of La Quinta. Please use proper judgement and caution when opening attachments, clicking links or responding to requests for information.

Dear Ladies and Gentlemen,

My name is Dimitry Chernavsky and I reside in City of La Quinta. My phone number is [REDACTED].

I have a written comment that I would like to bring up to the agenda regarding Vacation Rental Moratorium.

The main goal of the question is to bring to light a scenario that perhaps have not been thought of yet. When a vacation rental home is for sale and if it can be purchased by another vacation rental licensed company operating in La Quinta. This scenario appears to still eliminate one STR license, while keeping the Vacation Rental property operating, by transferring ownership and operation to another EXISTING vacation rental license owner.

Please let me know if this is something the City Council would consider listening or reading. And I will prepare a comprehensive statement, with examples and breakdown showing the benefits to everyone involved.

We are a team of vacation rental owners and take pride in operating at the most legitimate level.

Best Regards!

6. written comments

Please add this to the written comments as well. Thank you for your help

My name is Dominique El Moussa. We own a home at [REDACTED], La Quinta. While our family often uses the home, and we have been honorable, compliant and responsible members of this community for years, we have on occasion made it available to renters. Like our family, we required all renters to comply with both city and HOA rules. We demand strict compliance. Having the ability to rent the home during the times that our family cannot be there is extremely important to us. One of the rights of home ownership is the ability to rent it to qualified renters. But, as long as our chosen renters follow the rules, we should be able to rent it to them for any length of time. There is nothing magic about the 30 day mark-except La Quinta Municipal Code Section 3.25.030 defines any rental of 30 or fewer days as a « short term rental ». And now Executive Order 10, amended as recently as October 7, 2020, signals the elimination of the rights of homeowners to rent to renters for 30 days or less. The obvious driving force behind this policy change is not « noise » or « unruly renters » - that is just a pretext. The real driver is big hotel money. Obviously Montage and others are spending big money to develop hotels in the area and want to politically eliminate the Short-Term rental market. The easiest way to do that is to lobby this City Council and local HOAs to change the rules. I urge this City Council to reject this ploy. Don't let the council be used as a political pawn of big hotel money. The little guys need to be protected. We are the little guys. Please protect us. Thank you.

Subject: Request to City Council members or STR Adhoc committee

EXTERNAL: This message originated outside of the City of La Quinta. Please use proper judgement and caution when opening attachments, clicking links or responding to requests for information.

Hi Lori,

I respectfully submit this request to the STVR Adhoc Committee and La Quinta city council members to allow New Applications for STVR's in La Quinta for hosts that have shared space in their home or a casita on their property in residential areas and be exempt from the present moratorium. Shared space in a home or a casita on a property with a live-in host, needs to be defined and differentiated from a stand alone STVR residential dwelling with no host living on the premises.

The moratorium (Executive Order No. 10) on processing any new applications was put in place due to an increase of complaints and violations of STVR's in residential areas of our community. I can only guess these complaints were not generated from shared space or casitas STVR's. When a host shares a space within their home or on their property, a host is physically on site and is better able to monitor guest behavior and not impact the neighborhood.

My request is personal; I operated an STVR in my "casita" for three years with a city permit. Due to Covid 19 my adult son moved back in May' 20 and is presently living in the casita, therefore I did not renew the license. My bad! Home stays are a unique experience; depending on guest needs, a host becomes a personal concierge and a "self appointed" community ambassador. During my three years as a host, 4 of my guests purchased homes in LQ. The retired snowbirds and Europeans welcomed the experience of having an on-site host to interact with and share the local lifestyle and American traditions. Festival goers enjoyed returning to a quiet space after long evenings of festivities.

Sharing my home and my community is truly enjoyable for me and other future hosts, therefore I sincerely request that members of La Quinta City Council consider amending Executive Order No. 10 and exempt shared space and casita rentals from the present moratorium.

Thank you,
Nelda Esmeralda

I would like to comment on the SHORT-TERM VACATION RENTAL PROGRAM.

I am a tech company CEO and we also own a second home in LaQuinta that we rent out occasionally via Airbnb.

I would like to make a couple of observations that I think are relevant. First, is since airbnb accreted a few years go, there has been a dramatic improvement in neighborhood look, feel and overall quality of homes. I believe this is due to investors coming in and redeveloping houses, resulting in increased property values and increased tax revenues. This positive change can be rooted to Airbnb, and to discontinue short term rentals would be to cut the source of material redevelopment investment and tax revenues. That doesn't seem progressive from a business or city growth point of view.

Relates to Covid I believe families are more likely to rent to single family home for a vacation weekend than stay at a hotel, mainly due to the perceived increase risk associated with staying at a hotel because of a greater exposure to large numbers of people. Again, this would undercut tourism and associated revenues to businesses and the city.

Lastly, with regard to noise complaints, I think the city should step up involvement and penalties for repeat offenders. One option would be to adopt a "two strikes and you're out" type of rule for homeowners, and a zero tolerance for renters, with potential fines for violations to both owners and renters.

City Council Agenda October 20, 2020
Special Joint Study Session - La Quinta City Council & Planning Commission

- 1) Micah Hoffman
- 2) Lake Oswego, OR
- 3) [REDACTED]
- 4) Public Comment
- 5) Subject: Short Term Rentals
- 6) Written Comments:

I am adamantly against banning short term rentals in the City of La Quinta. My family has owned property in La Quinta for 40 years. I have been visiting since I was a child and now bring my own children several times a year. For the last three years, my brother and I have owned and operated the family property as a short term rental. It is the only way we are able to afford to keep the house and also use it ourselves. My family alone spends over a month a year in La Quinta, usually in two or three trips spread throughout fall, winter and spring. Hotels are not affordable for families looking to spend that kind of time in your beautiful city. Even if we didn't have our own home, the only way we would be able to visit the way we do now is by renting homes on a short term basis. Hotels are expensive, lack privacy, mostly do not have kitchens, have pet restrictions, and are not suitable in general for families (especially in our new Covid-19 reality). STRs also allow friends and family to visit us when we are in La Quinta. We often have groups renting several properties over the same weekend as a way to gather together. If short term rentals are banned, we will lose the real value of our family home as we will no longer be able to use it, not to mention killing our business and part of our livelihoods. Keeping the property afloat during the Covid-19 shut down was a struggle enough. Please do not make that a permanent crisis for us and every other STR homeowner. La Quinta is such a special place and banning STRs will make it off-limits to so many of us.

Thank you for your time and consideration.

EXTERNAL: This message originated outside of the City of La Quinta. Please use proper judgement and caution when opening attachments, clicking links or responding to requests for information.

Jim Lambert, [REDACTED], [REDACTED], Public comment, STVR, Zoning, Written comments.

We received some info regarding Newport Beach concerning STVRs there and in other communities.

Attached is the Staff report, of particular interest is the table on page 2 comparing some other communities

<https://mail.google.com/mail/u/0?ui=2&ik=77ae87a747&attid=0.1.1&permmsgid=msg-f:1680551697015187460&th=175284dd4f452804&view=att&disp=inline>

We have extrapolated that info and compared to our local situation.

Location	Housing units	Rental > 30 days %	STVR #	STVR %
Newport Beach	44800	44%	1500	3.30%
Carlsbad	47000	36%	690	1.40%
Santa Monica	50900	71%	340	0.60%
Dana Point	17317	39%	307	1.70%
Huntington Beach	81396	42%	266	0.30%

PUBLIC COMMENT ON MATTERS NOT ON THE AGENDA - RELATED TO STVR				
San Clemente	27868	34%	172	0.60%
La Quinta	24859	27%	1286	5%
PGA West	3000		480	16%
Legends Gate	355		87	24.50%
Muirfield SBA	85		34	40%
Housing units and rental percentages courtesy of Towncharts.com				

The figures for La Quinta are misleading because all the gated golf communities except PGA West do not allow STVRs. The restricted communities have at least 3000 residences, bringing La Quinta's STVR percentage to 6%.

The concentration of STVRs in the areas of North La Quinta, The Cove, and PGA West are overwhelming what used to be RESIDENTIAL neighborhoods but are now transient hotels with no on site management or supervision of activity and number of occupants. The 40% figure for Muirfield in PGA West Fairways HOA is ludicrous, but similar to the Cove and North La Quinta.

The city managers have violated the trust of the residents by manipulating zoning rules which prohibit businesses in the very low density and low density zoned areas. These zoning terms are consistent with La Quintas municipal code zoning, not the commonly referred R-1 and R-2 of other communities.

The municipal code title 9 Zoning, section 9.60.110 Home Occupations states under Use and development standards:

1. The establishment and conduct of a home occupation shall be an incidental and accessory use and shall not change the principal character or use of the dwelling involved.

~~PUBLIC COMMENT ON MATTERS NOT ON THE AGENDA RELATED TO STVR~~
2. Only residents of the dwelling unit may be engaged in the home occupation.

La Quinta land use element document Page 11-26 LU-3.1: Encourage the preservation of neighborhood character and ensure a consistent and compatible land use pattern.

Page 11-30 Goal SC-1: A community that provides the best quality of life for all it's residents.

According to The Desert Sun on 10/19/2020 the TOT from STVRs in La Quinta is \$2.2 million. You have sold out the residents' quality of life supposedly ensured by the zoning and land use documents for that \$2.2 million.

You have formed an ad hoc committee to study the STVR situation and make recommendations, the committee is made up of 15 people, 10 of whom are STVR owners or managers. Do you really expect this committee to make a decision which will restrict the out of control proliferation of these absentee landlord hotels?

The election is only 2 weeks away and not one candidate has stated they would work to stop STVRs and bring back our neighborhood's quality of life. Each has said they are studying the situation or have an unstated plan. Underwhelming to us.

The La Quinta council has to act to help stop these STVR's in these residential zones. Don't look at the profit - look at the misery it has created with your private residents/constituents.

October 20, 2020

Mayor Evans and Members of the La Quinta City Council,

On behalf of Expedia Group, a family of brands including vacation rental leader Vrbo, thank you for the opportunity to provide comment on the city's ongoing discussion around short-term rental regulations.

Expedia Group applauds the work of the Ad-Hoc Committee's enforcement recommendations, which provide a strong framework to address nuisance and community impact by clearly communicating and enforcing expectations for short-term rental operators, guests, and neighbors alike. These commonsense recommendations are a strong step toward sustainable, effective short-term rental policy in La Quinta.

In order to drive a high rate of compliance with these kinds of regulations, we strongly encourage you to consider additional requirements on short-term rental platforms like Vrbo. Specifically, in addition to the Committee's proposed requirement that short-term rental operators include license numbers on all listings and advertisements, we suggest including language that would require *platforms* to include license numbers on all listings. This would not only require the removal of any listing without a license number, it would also ensure that license numbers are displayed clearly and in a consistent space on each listing—a welcome benefit for compliance staff.

We also encourage you to go one step further and include language in La Quinta's ordinance that includes platforms as part of the compliance process, thereby driving a high rate of success while lowering enforcement cost.

One option would be to create and maintain a registry of approved, valid license numbers. Platforms like Vrbo would be required to check license numbers provided by their users against the City's registry before completing any booking. Santa Monica, California, has enacted language along these lines:

Hosting platforms shall not complete any booking transaction for any residential property or unit unless it is listed on the City's registry.

Alternatively, La Quinta could consider a more "hands-on" approach, in which the City does not need to create or maintain a certificate registry and instead notifies platforms directly of non-compliant listings. Similar language has been enacted in Seattle, Washington:

[Platforms shall r]emove any listings for short-term rentals or bed and breakfast units from the platform if notified by the Department that:

- a) The listing is not associated with a valid operator license or bed and breakfast operator license; or*

- b) *The license number provided to the platform by the operator or bed and breakfast operator for the listing is not valid; or*
- c) *The Department has revoked the operator license or bed and breakfast operator license.*

The platform shall remove the listing within 10 calendar days of the date of the written notification provided by the Department to the platform.

With license numbers displayed on all short-term rental listings in La Quinta, the City will be able check those numbers for compliance and flag non-compliant listings for removal.

By enacting these requirements in La Quinta's ordinance, Council could ensure a level playing field across all platforms while driving a high rate of compliance with the underlying ordinance, allowing you to take swift and effective action against problem properties while allowing responsible operators to continue welcoming guests to La Quinta, generating critical TOT revenue and economic activity across the city.

Thank you for your consideration of the above, and for your continued partnership as this conversation moves forward. We would be grateful for any opportunity to share our expertise and experience in short-term rental policy around the world as La Quinta discusses additional ways to balance your community's priorities. Please feel free to contact me directly at 206-660-8227 or rilazaro@expediagroup.com with any questions.

Sincerely,

Richard de Sam Lazaro
Senior Manager, Government and Community Affairs
Expedia Group

La Quinta City Council Members,

As you assess the future of STVRs in La Quinta, please consider the following. We recently closed on a property in PGA West. As a second home, it will give our young children the opportunity to leave an urban environment; giving them the space to play, explore, and make memories, which is invaluable during these COVID times. However, in order to make it financially viable for our family, it's important that we have the STVR option, especially during this uncertain period. With that, we urge you to consider the following mechanisms in order to keep the STVR market feasible from both the owner and renter perspective. A couple key considerations to explore to continue towards the objective of creating a safe and effective program:

1. Remove the moratorium on STVRs for properties within HOAs; it's not a data-backed decision, and communities like PGA West have stricter rules and regulations than the City of La Quinta
2. Require STVR properties to have formal property management in some capacity (and thus property managers are the first responders on all issues)
3. Empower the HOAs to enforce/manage/own all complaints to take the burden off of La Quinta
4. Require STVR properties to install noise meters so that owners are notified (and thus have the opportunity to resolve) prior to potentially disturbing a neighbor

These measures support the majority of diligent owners and renters who abide by the regulations (vs. the minority of owners that are exacerbating the complaints per the data).

Aside from our personal situation, retaining this key revenue stream for the city of La Quinta is a critical consideration to remain financially stable. By tweaking the STVR protocols, there can be a path forward that allows for peaceful and profitable coexistence.

Thank you for your time and consideration.

Members of City Counsel LaQuinta,

I have been an STVR Airbnb host since it's inception here in the City of La Quinta!

I do not own a rental,

I rent out rooms in MY house where I reside.

I provide this service during the music festivities of Coachella and stagecoach, and sometimes tennis and golf and an occasional wedding!

I have hosted the most wonderful people over the years, I have never had a problem with any of them. They have all been respectful and courteous and because of them I have been an ongoing Superhost on Airbnb in this city that I ❤️ love for many years!

It would be a shame for STVR's to be discontinued because of the fault of a few multiple home rental owners that do not abide by the laws!

Airbnb has also provided me with extra income, and as Senior citizens this income has been very helpful to my husband and I and it allows us to afford to live here in this beautiful Gem of the Desert City.

Please be considerate of those of us that abide by the rules!

Thank you,

Carol and Joe Maldonado

Sean Parham
La Quinta
[REDACTED]

City Council,

La Quinta is a town built on hospitality. Without tourism, the city would not be what it is today. I own 3 houses in the La Quinta Cove. One I live in and the other 2 are STVRs. In the almost 3 years of my ownership, I have never had a complaint or an issue with the city. I am a responsible owner and I have worked very hard to follow the rules and regulations and to be successful in my business. I keep my houses cleaned and well maintained. My two rentals employ pool service, cleaning service, and maintenance. The economic impact on the community cannot be denied. If STVRs goes away so will the tourist and all the good things it brings to our city and the Coachella Valley. With all the new airline service coming to Palm Springs International, where will those visitors go if there is no place for them to stay? Shut down the STVRs and you are shutting down the economy.

I agree that the party houses need to be shut down. Homes with multiple violations in a 12 month period should be shut down. I would recommend that a house no matter how large it is can not exceed 10 guests, including children. I would go further and say that a 3-night minimum should be required to weed out the party-goers. I would also recommend that the city raise the TOT to cover the cost to better manage STVRs and to work with the likes of Airbnb and VRBO to hold the guest accountable for their actions. The city should consider issuing fines to the guest, too. The city needs to send a message to our guests that La Quinta is not a party town.

In closing, I would encourage the city to stop demonizing the STVRs and put more resources into the management of the program to make this a win for all of us. Shutting down the STVRs will only hurt our economy and our community in the long run. Let's work together for the better of La Quinta.

Respectfully,

Sean Parham

Subject: STVR noise Solution!

EXTERNAL: This message originated outside of the City of La Quinta. Please use proper judgement and caution when opening attachments, clicking links or responding to requests for information.

Greetings to you Madam Mayor and City Council Members. My name is Adrian Pinson and I have lived in the Coachella Valley since 1973.

I am a local builder and real estate investor and have built and remodeled homes in the city of La Quinta and throughout the Coachella Valley since the 1989. And since the inception of STVR channels like Airbnb and VRBO, my wife and I had expanded our business portfolio to include STVRs.

I currently own three short term rental properties in the city of La Quinta and we, like many hosts you have heard from this afternoon, we make every effort to maintain a five star rating as well as maintaining compliance with all applicable city ordinances. In fact, not only do we have the city rules and executive orders stipulated on our channel's platforms but we also have it laminated on the wall near the entry doors of our properties. We further reemphasize these rules to our guests via text or phone immediately after they book and again the day of their arrival. Certainly this may seem like an exasperation to our guests but we do this in order to insure an enjoyable experience for our guests, ourselves as Host, and to be a "Good Neighbor".

I'd like to share briefly of a situation that took place earlier this year and tie that into how I derived to what I believe to be a fair and effective solution to remedy the noise issues:

One of our properties had been given a 90 suspension and cited \$1,000.00 for simply not returning a phone call from the city's third party that came from a random 1-800 number late night. The call stemmed from an alleged noise violation that was proven to be fake. The police officer can be heard on my Ring doorbell camera talking to my guest and saying that he (officer) had been parked out front of the house for a while and he could hear no noise whatsoever. I later contacted the officer to request a copy of his report but was told that no report was written because there was nothing to report.

You see, we had managed that particular STR property without receiving any complaints or violations for over a year. However... following a bad encounter I had with our next door neighbor, things began to change.

One day, my neighbor had gone over to my house while we were replacements furniture inside. When he saw me outside, he approached me in an angry loud voice (causing a scene) and demanding that I move my commercial work truck, which was fully parked on my driveway. I explained to him that it was just there temporarily as we were doing interior work and all our tool were in the truck.

He replied: "I don't care what you're doing, just get your truck out of here! I don't want to see it here!"

While I was trying to defuse his anger, making every effort to be respectful, I realized that he had no intentions on be civil or understanding and began to insult me, at one point saying "You people should not be owing a house in this golf course community! This place was better before you moved here!"

I have no idea if that comment was racially charged but I certainly found it to be offensive. I responded by reminding him that he was not the authority in the city nor was I violating any city ordinances and that I will move the truck when I was done utilizing it.

His response to me: "I'm going to make your Airbnb a living hell."

Coincidentally, we began receiving fallacious and fabricated complaints thereafter, one of which led to our "non-response within 45 minutes" violation which I explain above.

Unfortunately, I was unable to confront my accuser as the city allows anonymous complaints (fake or real).

This afternoon, I have listened to a number of Hosts advocating for tougher and more strict regulations to be imposed upon us as Hosts in lieu of a complete shutdown or moratorium. I disagree. I would argue as both a 5 star Host that overly enforces the noise rules and having gone through the city's penalties - implementing more stricter rules that solely targets Hosts would be both inefficient and ineffective in resolving the city's STR noise issues.

You see..... although STR channels allow Hosts to post a security deposit, Host can only collect this fee ONLY IF items were found to be missing or damaged. If guests violates any rules or city ordinances, the Hosts cannot collect those fees from the Guest's security deposit but instead are told to collect these fees outside of the platform via a civil lawsuit in court, if we're so inclined.

A Guest can reassure the Host that they will not cause any problems and will abide by the rules but if they choose later to not comply with the noise ordinances, they can do so without receiving any consequences other than a bad review from the Host once they check-out. Simply put - guests can party loud for a weekend then leave back home while the Host is left to deal with the damages of a 90 day suspension, \$1,000 penalty, or even a permanent suspension of their STR permit. This is UNFAIR to all law abiding Hosts!

That being said here is my solution advice and I believe it would be 100% effective in resolving the STR noise issues that may arise:

As Police officers govern traffic laws – so should the City's govern STVRs.

E.g., A driver violating traffic laws would be cited by a Police officer regardless of who's vehicle he/she were driving. The traffic citation would be issued to the driver NOT the vehicle owner. This is how the city should govern STVRs. Either city Code enforcement and/or police officers should issue the citations directly to the violators (Guest) if guests were found to be in violation.

1st violation = \$1,000.00 citation to Guest

2nd violation = Immediate eviction from property.

If implemented, Host will post this law in the Rules section of their STVR channel as well as post the penalties on an interior wall were Guests to see. The city wins by remedying the noise problem as well as collecting significant amounts from any Guests who do not comply with the noise ordinances. And the Hosts win because we now are less likely to have unruly guests and less likely to be targeted by fabricated complaints made by neighbors.

Please take my advice into consideration. I strongly believe this would be a highly effective STVR law when implemented. Thank you for your time!

Adrian Pinson

Subject: Don't ban or limit short term rentals

EXTERNAL: This message originated outside of the City of La Quinta. Please use proper judgement and caution when opening attachments, clicking links or responding to requests for information.

Dear members of theCity
Clerk of La Quinta.

My name Maria Sanchez

I'm a La Quinta Resident

My ph. Number
[REDACTED]

Short term rentals are important to the city in terms of promoting the economy And tourism but also to the hosts who many wouldn't be able to afford the mortgages without this possibility.

If we are required to only allow long term rentals we are opening up our homes to potential squatters. This is a very real issue at the moment as the state of California has a moratorium in place relating to evictions there is no telling when it will be lifted which could result in many people losing their homes.

I said Not to ban or limit short terms.

Maria Sanchez

EXTERNAL: This message originated outside of the City of La Quinta. Please use proper judgement and caution when opening attachments, clicking links or responding to requests for information.

Tommi,

This is why clusters are a terrible idea. The city must find a way to correct the density and violation issue or this program is dead in the water. Residents will put it on the ballot and it won't be that difficult. This idea that old people are complaining about young is silly. If you have a problem next to you it is a problem regardless of the age. In PGA West it is golfers drinking after their rounds and whooping it up until late at night. Residents come first...and they are not ill-informed as the staff report indicates.

October 19, 2020

Dear Mayor Evans, Councilwoman Fitzpatrick, Councilman Pena, Councilman Radi, Councilman Sanchez:

I have written to council and the Ad Hoc STVR previously expressing my concern about STVRs and the harm they bring to our neighborhoods. My wife and I have lived in La Quinta 46 years and in our current home since 1978. I'm saddened to say that our neighbors are disappearing at an alarming rate. They are replaced by strangers staying at mini-hotel businesses across and down the street. I believe there are now 5 STVRs operating on our block and a 6th starting construction. You can't have a neighborhood without neighbors!

Reaction from the owners and managers of these businesses seems to be, "So What?" There's money to be made, so let's make it. Residents be damned! Then like locusts they'll move on. These are not just the mom and pop owner examples the managers and corporations frequently trot out as examples of those cruelly stripped of their property rights. These are often well financed corporations preying on communities that seem to have made it easy for them to do so. Comments from the Ad Hoc Committee and council persons' frequently say, "We just need to find a way to make STVRs work without inconveniencing or disturbing neighbors." No amount of regulation is going to maintain neighborhoods and quality of life that come with them.

Palm Desert, Cathedral City, and Rancho Mirage have come up with the solution...**protect resident quality of life**...by eliminating non-hosted STVRs in R-1 and R-2 zoned areas. They're allowing hosted STVRs and HOAs to continue should they wish. What is so frustrating about La Quinta is the failure to plainly state, "Residents are our priority!" It's clearly not the priority of absentee owners and managers on the Ad Hoc Committee. City council is the protector of non-gate guarded neighborhoods. Where are your priorities?

The moratorium extension is a positive step. However, please at least recognize that regulation is highly problematic, and may not work. At least recognize, as three other city councils have in the valley, residents are more important than profit.

If you discern a note of despair in this letter you're right! For the first time ever we've considered leaving La Quinta! It's heartbreaking. We love it here. And guess what, if we sell

and leave, our home will become another STVR. Please remember the residents!

Sincerely,

Jeffrey Smith

, La Quinta, CA 92253

PLEASE FORWARD THIS MESSAGE TO OUR CITY COUNCIL

Aren't you tired of getting dozens of emails, letters and phone calls from the public regarding the STVR problems?

You are hearing from only us "squeaky wheels".

You need data.

Why not find out what the broader community feels about this issue? Cathedral City did a sampling their community, with a survey that resulted in numerous comments. It showed that council the mood of their residents. Please consider this approach.

Also, has a real cost analysis been done, to see what the NET revenue to the City actually is? How much revenue are hotel losing to STVRs? All the related costs for enforcement and tracking seriously impacts the bottom line.

I'm sure that, like the Rancho Mirage Council, you will put RESIDENTS' best interests first.

Submitted by: Chuck Parker, resident of Desert Hot Springs, [REDACTED], subject: Proclamation for Students who Kayaked across the Salton Sea.

Dear La Quinta City Council,

I am submitting this public comment for your meeting on October 20, to thank you for issuing a proclamation to the three valley high school students for crossing the Salton Sea in a kayak to draw attention to the need to restore it and protect our health and economy. Their effort to dramatize the need to protect our local environment are remarkable.

Our Salton Sea Coalition is sending you a new sample resolution concerning the Salton Sea to follow up on your resolution of last year. We are asking your council to place this resolution on a future agenda. Our resolution aims at recommending actions that can prevent further delays, and bring us closer to a solution for the whole sea. We believe that passing a new resolution of support for "a comprehensive analysis of ocean water import as part of a long term solution for the Salton Sea would be a perfect complement to your proclamation recognizing the achievement of the youth kayak team.

Three other cities have already passed our resolution - Coachella, Desert Hot Springs, and Indian Wells. Palm Desert and Cathedral City are preparing to do so at their next meetings. Each city has chosen to vary the wording to fit their exact intentions, and you are welcome to do the same thing if you chose to do so - we appreciate any form of support for exploring a whole sea solution using ocean water import.

We would also like to urge the council to appoint one of your number as a representative on the Engagement Committee of the Salton Sea Management Plan. Up until this time, none of the cities of the Coachella Valley have been represented on this committee. We need to be part of these discussions so that our communities

are not forgotten about, and so our leaders can help give input for the best possible outcome for a restored Salton Sea and surrounding area. The Engagement Committee meets quarterly, and their next meeting will be in December. Arturo Delgado who heads the Salton Sea Management Plan has told me that he will consider requests from individuals who want to represent their cities on the Engagement Committee. Please contact Arturo Delgado, the head of the Salton Sea Management Plan with your request. His email is: arturodelgado@resources.ca.gov, and his office phone number in Bermuda Dunes is: (760)200-9186.

Thank you, Chuck Parker, [REDACTED].

City of Residence: San Jose, CA
Phone Number: [REDACTED]
Agenda Item Number: Study Session 2 - Discuss STVR
Subject: Working together to continue to build on the strong STVR partnership in La Quinta
Comments:

My wife, Lauren, and I have enjoyed the Coachella valley for over 15 years and are so happy to call La Quinta our second home. We specifically targeted La Quinta after we had rented a room via AirBNB when we were attending Coachella one year. The city and our hosts were amazing and we were hooked and never stayed in Palm Springs or Palm Desert again.

When we started our family we were in the market for a 2nd home that we could enjoy with our kids and also recoup some of our costs via STVR. We looked at Lake Tahoe as many folks from Silicon Valley do but we never got the same feel that we had in the desert. We spoke to realtor, Jon Caruana, and he explained how pro STVR the city of La Quinta was so we decided to make this our second home.

Since purchasing the property in Oct. 2018 we have gladly paid over \$12k in TOT as we felt the city has done a great job in managing the program. We have also contributed to the economy of the city in employing cleaners, gardeners, pool men, plumbers, appliance repair, etc. We pride ourselves in looking for La Quinta local companies to complete all of the work on our home.

Every guest that we have asks for golf, food, and entertainment options and we gladly recommend the amazing courses and restaurants (we love old town!).

Lately, we have heard quite a bit of chatter in the desert about limiting or banning STVRs and I want to personally express that I am 100% against that as the economic impact would be huge. In a time of a global pandemic the opportunity to have the additional income to cover the expenses of our property has been a life saver and I have to think the local businesses feel the same way. The businesses I have mentioned would suffer, the city would suffer, and real estate prices would drop dramatically. Our home and many others would go up for sale immediately as we couldn't afford all of the expenses without STVR. You couple that with the pool of buyers reducing drastically as many young professionals will not be interested in a second home that will sit vacant for a good portion of the year.

We have the chance to work together and take a similar path to Palm Springs and I urge all interested parties to listen to each others views and come to an agreement to keep STVRs thriving in La Quinta, but to do so responsibly. Thanks!

- 6) Written Comment

Good evening,

I am representing a Short Term Rental advocacy group called Vacation Rental Owners & Neighbors of La Quinta. Two weeks ago through a public records request we requested data on all complaints and citations for all STRs in 2020 YTD. The data provided to us was very informative and our group would like to address some of the trends we identified. Attached is a graph of complaints and violations that our group put together based on the data provided. I would like this submitted as a supplement to my verbal comments request which I have already submitted to the city. Also attached is a copy of a complaints and citations report for the City of Palm Springs which is posted weekly on the city website, which I would also like to address in my verbal comments.

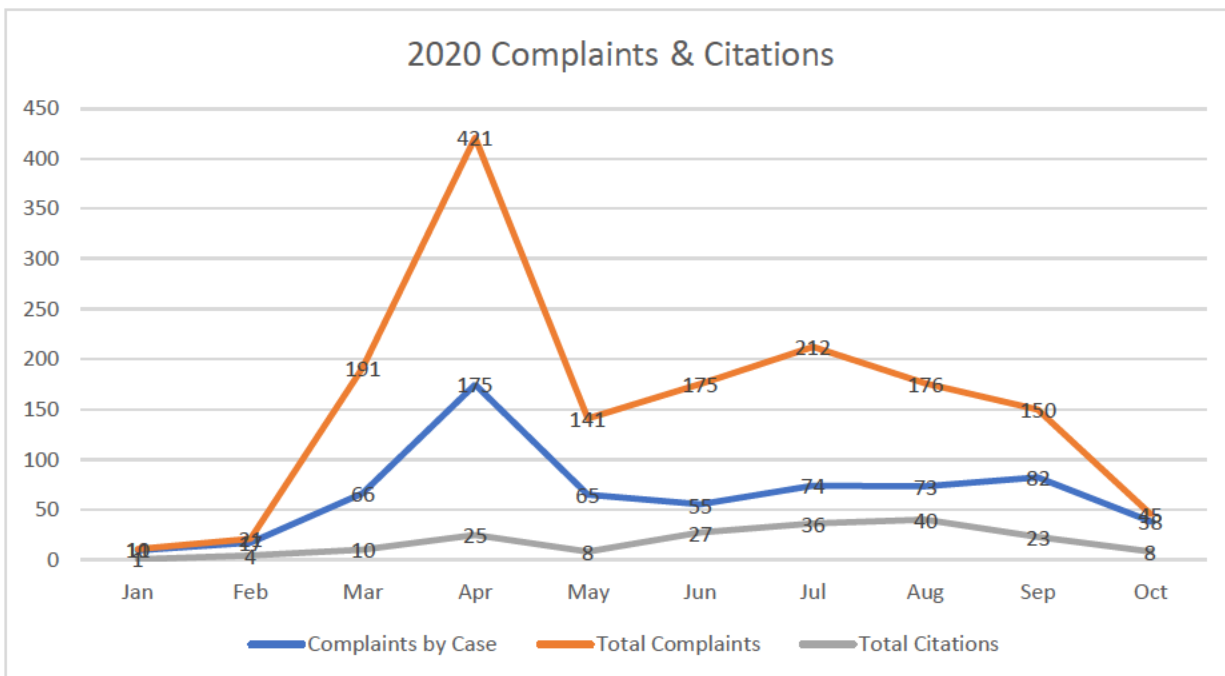

Thank you

Shannon Chavez

October 20, 2020

Honorable Mayor and Members of the City Council
City Hall Council Chambers
78-495 Calle Tampico
La Quinta, CA 92253

Dear Mayor Evans and Honorable Members of the City Council,

On behalf of Airbnb, thank you for the opportunity to provide input as the City of La Quinta explores possible changes to its Short-Term Vacation Rental program. Since 2008, Airbnb has worked closely with hundreds of cities around the world to help communities realize the key benefits of short-term vacation rentals for residents, visitors, and local economies through fair, balanced regulations. We appreciate the thoughtful approach that the City of La Quinta and its Short-Term Rental Ad Hoc Committee have taken to date to balance the interests of residents, small businesses and other stakeholders when it comes to short-term rentals.

Airbnb is founded on trust, and for us to succeed in our vision of helping anyone belong anywhere, we must continue to build trust both among our own host-and-guest community and across the communities in which we operate. We have dedicated significant resources to developing trust and safety tools and policies to address neighborhood nuisance, party houses, and other concerns that may arise. This letter outlines several of these tools and policies that we hope the City of La Quinta will find valuable as it considers ways to strengthen enforcement this evening.

Addressing Neighborhood Nuisances

We have long standing policies, protocols, and procedures addressing safety and the potential misuse of Airbnb properties. In 2019, we built upon existing policies we already had in place to address the more serious trust and safety issues that result in immediate removal from the platform. We are also enhancing our system to better monitor for guests who disturb the community through situations involving excessive noise, major cleanliness concerns, unauthorized guests, unauthorized parking, or unauthorized smoking as well as hosts who allow such situations to continue once it's been brought to their attention. We will educate and take appropriate action against guests and hosts when we identify violations of our [Community Standards](#).

To demonstrate our commitment to helping your community address problematic short-term

vacation rentals in your community, we want to share our [Airbnb Neighbors Tool](#) ([airbnb.com/neighbors](#)) and 24/7 phone hotline (855) 635-7754 . It empowers your constituents, regardless of whether they have an Airbnb account, to report concerns regarding noise, parties and other nuisances directly to Airbnb, allowing us to take appropriate action to address the issue. If the concerned neighbor provides the listing's web address, an Airbnb team member will follow up personally with the neighbor. Constituents can also make inquiries or provide feedback anonymously. We encourage you to share this tool with your constituents, local neighborhood groups, Homeowners Associations and anyone else who you believe will benefit from the tool's use.

In addition, We have a full-time team committed to engaging with our law enforcement partners to assist with investigations of criminal activity and ensure the safety of our community. Law enforcement officials can submit both standard and emergency requests via our [Law Enforcement Portal](#).

Party House Ban

We have zero tolerance for unauthorized parties that create public safety risks and disturb neighbors, and have had a party ban in place since 2019. When the pandemic was declared earlier this year, and social distancing became an important element in promoting public health and responsible travel, we updated our policies. We started by removing both the "event-friendly" search filter from our platform as well as "parties and events allowed" House Rules from any event-friendly listings. Most importantly, we introduced a new policy requiring all users to adhere to local COVID-19 public health mandates. At the time, most local governments were imposing strict limits on gatherings, which effectively created a form-fitting, patchwork ban on parties and events.

Since then, public health mandates on gatherings have changed – and in some places swung back and forth in response to the changing rates of COVID cases – as have regulations on bars, clubs and pubs. Some have chosen to take bar and club behavior to homes, sometimes rented through our platform. We think such conduct is incredibly irresponsible – we do not want that type of business, and anyone engaged in or allowing that behavior does not belong on our platform.

Based on these developments, we instituted a global ban on parties and events, and capped occupancy at Airbnb listings at 16 people. To further reduce the number of unauthorized gatherings, we've launched an anti-party policy in the U.S. that restricts some guests under the age of 25 - those without a history of positive reviews - from booking entire home listings locally.

Airbnb Trust and Safety Tools

While the Airbnb Neighborhood Tool helps us respond to activity that may harm neighborhood integrity, we are actively taking steps to prevent nuisance activity from occurring on the platform in the first place. Steps that we have taken to strengthen our commitment to public safety include

manual review of high-risk reservations, as well as background checks on host and guests.

* * *

These are but a few of the steps and tools we are introducing to ensure that the City is not alone in its enforcement of its short-term vacation rental rules and that we stand ready to assist in any way we can. We are honored to have a presence in a city like La Quinta that has embraced vacation rentals for decades. We look forward to playing an active role and contributing to this history moving forward.

Sincerely,

A handwritten signature in black ink that reads "John Choi". The signature is fluid and cursive, with the first letters of "John" and "Choi" being capitalized and prominent.

My request of the City Council:

Please don't make decisions for the long term based on a short term spike in complaints that came as a result of the COVID-19 pandemic. This spike is resolved and already well behind us.

Earlier this month I submitted a public records request and was provided with details of the number of complaints and citations since the start of the year. The data provided to me was for the calendar year to Oct 15,2020.

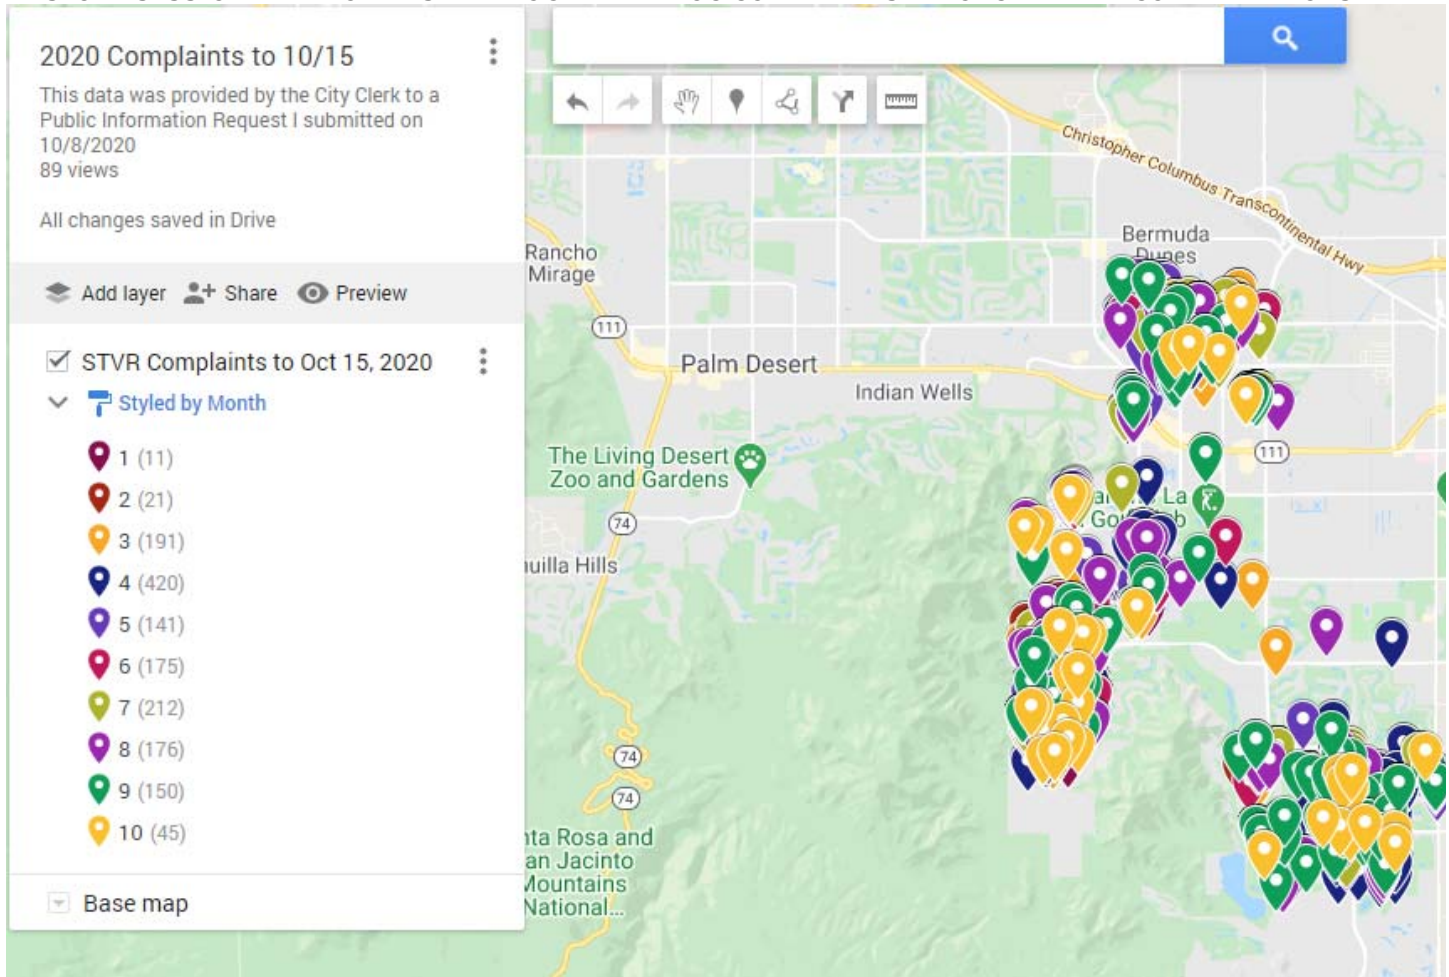

Using this data, I created the following map. I was hoping to see the locations of hot spots as well as the trend, for example, are the number of complaints increasing?

The following link shows the locations of all complaints since 1/1/2020, color coded by month.

<https://www.google.com/maps/d/u/1/edit?mid=1g2wtiAARdAD7g-pX1w2qaEmkpcR5tQfh&usp=sharing>

The complaint data is current to 10/15/2020.

The style legend on the left shows the month of the complaint with the monthly total in brackets.

The data shows that half way through October there have been 45 complaints. At this rate the City is on pace for 90 Complaints in October.

1. That's a reduction of 40% on September (150)
2. That's a reduction of 48% on August (176)
3. That's a reduction of 57% on July (212)

In spite of the September mailer promoting the STVR Hotline, which should have resulted in more calls, we are seeing a clear downtrend in the number of complaints.

The data suggests that the City has turned the corner and I strongly believe this trend will continue to improve over the next few months. Other cities in the Valley have seen a similar shift since complaints peaked in the middle of the year. STVR owners and managers all over the valley have seen a shift in guest demographics to one involving family groups.

The City should evaluate this downward trend and use data over the coming months to determine if further action is warranted. With the moratorium on new permits in place till early February we now have a static list of permitted properties that are adapting and educating themselves on the rules, even as they are being changed around them. They've finally caught up.

In Summary:

1. Don't react now to an issue that occurred in the past which is firmly behind us.
2. I encourage the City to adopt a "Wait and see" approach and act only when the data dictates it is necessary.

I would also suggest that the City be more transparent with the data. As hotline calls come in they should be categorized so that it's clear what ordinance prompted the call. Is it noise, parking, trash, illegal operation, no permit in advertising, too many occupants etc etc. Good decisions come from good data....and we need good data. With respect to transparency, this data should be published for all to see. The City of Palm Springs does it on a weekly basis, why doesn't the City of La Quinta follow this proven data driven model?

Thank you for taking the time to read my message.

John Hastie

Dear City Of La Quinta,

First and foremost, thank you for the wonderful job and hard work you do. The city does a wonderful job at keeping the city looking fabulous and well kept! La Quinta is a model city and I am so proud to be able to be a part of such a special city.

As you are well aware, we are in the middle of economic uncertainty and possible the verge of an economic collapse. With travel restricted the visitors to the Coachella valley are mainly from local areas like Los Angeles. After reading your budget for 2019-2020 I see that the majority of the funds to the city come in the form of real estate property taxes, sales taxes and TOT taxes.

I ask you this question, is this really the correct time to consider even stricter regulations? Can you imagine owning a retail store or restaurant right now and imagine how hard it is to run your restaurant during a pandemic? I am sure that you realize that when people from outside of the Coachella valley visit La Quinta they shop at local restaurants and contribute to the city's tax basis. Think about the corner store who has seen his traffic plummet and now think about what that would do to his or her shop if you enact more regulation and discourage operators from opening their homes to travelers. Think about the effect this has on the gardeners, pool service, cleaners and countless other people who get employed as operators need to take special care of their properties to attract guests. Also, during and after this pandemic many people will not want to visit and simply go to a hotel! The home sharing idea and short term rentals are here to stay and we need to adapt to the new economy instead of trying to hurt it.

Part of what makes La Quinta unique is its strong emphasis for travels and tourism in general. By letting a few bad apples ruin an entire economy would be disastrous for small business and the city tax base. Imagine the entire Coachella valley banning short term rentals what that would do for the economy and local business. I am not saying we don't need any regulation. But consider this possible solution, if there is a problem address that has been identified for not having a permit or general nuisance house... why not work with airbnb and

other online platforms to de-list these properties so that they can't advertise? That cuts those problem houses off at the source instead enacting all of this regulation and going back and forth on this. If they can't advertise nobody will know who they are and that would solve a lot of these issues. Also, why are we targeting the home owners treating us like children and criminals? Are we not on the same side here? The city should be ticketing the people making noise or causing the disturbance not threatening the home owner who simply can't monitor the guest behavior 100% of the time. Ticketing and targeting the guests who make noise or cause parking issues would discourage those problem guests from behaving that way in the future. Home owners and operators need to work with the city and come up with a better solution than 3 strikes and you are out. We are not criminals. We are the ones who are contributing to millions of dollars in tax revenue to keep the city running. We are the ones who generally take meticulous care of our properties. If a ban takes place there will be tons of people selling homes and would cause more economic ruin and potentially neighborhood downturn as homes are no longer maintained properly. Causing even more quality of life concerns.

Another issue is the fact that it is very hard to operate a short term rental as it is. We don't need more red tape and regulation. We are not getting rich off this we are all trying to survive. As you know California is very expensive and with so many people fleeing the state due to over reach and over regulation of business.

So please for the health of the economy, the wellbeing of the local business and workers. The tax base and the countless small business that would be affected by more regulation and banning short term rentals. By creating more hoops and erroneous regulations or even banning short term rentals we will be discouraging visitors from staying in La Quinta and potentially destroying what is left of this fragile economic state we are in right now.

Thank you for your consideration

- 6) Written or Verbal Comments:

Issue 7: Noise/Behavior/Party Events and Issue 8: Occupancy Limits

I have a very strict no party policy. I also make each guest aware of the city ordinances, occupancy limits and good neighbor brochure which is also posted at the home. From my experience, a vast majority of problems arises from local residents. It wouldn't make sense for someone from another state or country to caravan a bunch of folks here to throw a large disruptive party. I currently have a no local residents (Coachella valley) policy because locals have too many friends, family and contacts nearby which makes it easy for them to throw a party. Since this policy, I have had only one issue where there are a renter had their location set on Airbnb to a different area or state but they are in fact local. (I assume this is because their DL is registered to another address for one reason or another) We can't see the phone numbers of guests until we confirm the reservation to which then we find out they had a (760) number. We contacted Airbnb and they refused to cancel the reservation and as suspected they caused a lot of noise. I was informed by a neighbor and handled the situation right away. It was mentioned in the agenda that citing the renters doesn't make sense because there's no way to collect on the fine if they live out of state. I never had an issue with people coming from out of state or out of the country. They are usually older snowbirds. If nearly 100% of my issues are caused by local residents, then it would make sense to cite the renters themselves in my opinion as the losses from those living out of the state or country would be very minimal. I should also note that a vast majority of my guests are from California. Citing the renters themselves is also more fair for a STVR owner like myself who tries everything in my power to prevent anything that would be disruptive to the neighbors but is sometimes caught in between guests who do not list an accurate location and Airbnb's unwillingness to cancel those reservations.

Issue 9: Parking

While my STVR is located on a corner lot, which naturally has more parking, I realize it may be an issue for others. A vast majority of my guests utilize the driveway and I rarely have cars parked on the street. I do not agree with having to take down the plate number for every vehicle. It would be a logistical nightmare for STVR owners, especially for ones who have self-

checkin. We can't always be available to physically take down the plate numbers of each car especially if some guests arrive late so our other option would be to ask the guests themselves. We already have to make each renter aware of the good neighbor brochure and all the current ordinances and now having to ask each guest for their license plate numbers seems to be a bit hostile for guests who are coming here to vacation.

In general, I am very happy with the current landscape the wonderful City of La Quinta has crafted when dealing with STVRs and the fairness they employ to the multiple parties involved. I would also like to state that La Quinta and the surrounding cities are considered resort cities so there has to be a balance between STVR owners like myself and the residents who are voraciously opposed. After all I came here first as a guest. Fell in love. Purchased my home and made improvements. I don't understand why folks would purchase a home in a resort city but then be opposed to the guests that drive the economy when at one point they were guests in this beautiful city themselves. Many STVR owners have been beautifying their neighborhoods and helping with property values. I sincerely hope we do NOT follow in the footsteps of some of our surrounding cities in trying to eliminate STVRs.

Thank you!!
Allen Lin

La Quinta City Council Members,

As you determine the future of STVRs in La Quinta, please consider the following. Last March when Covid began, we rented a home in PGA West to get away from Los Angeles with our family and stay safe. We fell in love with the community and La Quinta so much that we bought the house three down on the same street! 😊 We use it as a second home for our family to spend valuable time together in the most beautiful setting in the world. To make it financially viable for our family, it’s important that we have the STVR option, so we can continue to have the home for years to come. We have partnered with a fantastic local rental company that does everything above and beyond to ensure all rules are followed. And we believe this is critical for the whole community. Please consider the following mechanisms to keep the STVR market feasible from both the owner and renter perspective

1. Remove the moratorium on STVRs for properties within HOAs; it’s not a data-backed decision, and communities like PGA West have stricter rules and regulations than the City of La Quinta
2. Require STVR properties to have formal property management in some capacity (and thus property managers are the first responders on all issues)
3. Empower the HOAs to enforce/manage/own all complaints to take the burden off of La Quinta

4. Require STVR properties to install noise meters so that owners are notified (and thus have the opportunity to resolve) prior to potentially disturbing a neighbor

These measures help all the diligent owners and renters who abide by the regulations.

We also have looked at all the data and believe that this is a key revenue stream for the city of La Quinta to help it continue to be the wonderful place that it is for all who visit or live there. By slightly changing the STVR protocols, it seems there is a win-win situation for everyone involved.

Thank you for your consideration and hope you are all remain healthy and happy in these trying times.

Agenda Item: Study Session #2
Short-Term Vacation Rentals

I am writing in favor of Short-term Vacation Rentals in the city. La Quinta is a resort community that is a wonderful community for residents and visitors alike. Our city thrives off of the visitors with those who support local businesses, including entertainment, restaurants, grocery stores and more. These visitors also patronize the dozens of local golf courses, hotels.

Restricting the STVR's would be devastating to the local economy. While I agree the STVR homes need to abide by a set of rules & guidelines, these rules should be consistently enforced. Single out the problem homes & deal accordingly.

Restricting or attempting to ban STVR's would have the following immediate negative consequences:

- 1) Devastating to local service businesses. - vacation renters dine and spend at local establishments.
- 2) Detriment to public golf courses. - STVR Renters come to play golf and use the facilities. For those who are members of these courses, you will likely see your DUES INCREASE as public revenues drop.
- 3) Damages the local government budget through TOT and sales taxes paid by renters - in 2019 short term rentals were 35% of all occupancy taxes, totaling \$3.5MM. This would be a significant loss to La Quinta and the public services we enjoy.
- 4) Erosion of your property rights. - All STVR homeowners purchased in the city with the RIGHT to rent their homes.
- 5) Dramatic reduction of property values. - 15-20% reductions in property values in cities who pass short-term rental bans.

The city must not single-out only STVR owners. There is a sect of full-time owners who believe they are entitled to never hear a decibel of noise and they cost the city time & resources with fraudulent phone calls and complaints. The city must be reasonable and equitable when establishing rules, while also penalizing those who make false claims.

- 5) Subject - Short Term Vacation Rentals

As stated in the Background section of the agenda, the entire Coachella Valley has gained a reputation in the tourism industry.

People love visiting La Quinta. They are not going to the hotels. Without short term rentals the local residents will suffer more than the vacation home owners.

During this year of the pandemic, the City and its residents should enjoy the benefits that short term rentals bring to the community. If the City cuts out short term rentals now, the local economy will suffer.

The residents need to stop complaining about the small problems that short term rentals bring. Many people are looking for a place to escape to during the pandemic. The local residents should welcome these people and be glad that we live in a place that others want to visit. A lot of the local residents on my street make more noise than the visitors.

It's good that the City is spending more time and money on enforcement efforts. The City should notify the residents that they are doing this.

I respectfully request that the City and its residents put this agenda item off for another year. Now is not the time to cut out a major source of revenue for the City and local businesses.

Let's continue to discuss the issue without cutting off the short term rentals so quickly.

ONE MORE YEAR - that's all I'm asking for! Let's give visitors a beautiful place to visit during this time of need.

I will be happy to make verbal comments if allowed to do so.

5. STUDY SESSION – DISCUSS SHORT-TERM VACATION RENTAL PROGRAM AD-HOC COMMITTEE’S ENFORCEMENT RECOMMENDATIONS
6. Written Comment: As an owner of multiple properties in the City of La Quinta for the past 3 years, I am greatly troubled by the recommendations that are coming forward. I currently have over 250 reviews and pride myself in the opportunities I have created for our guests. These guests bring in lots of revenue for the City, plus the additional taxes I pay for transiency taxes each month. Why does the City feel the need to solely go after the home owners? Why can't you make the renters accountable as well and "ticket" them with the larger proposed fines? This would give you additional revenue. I absolutely love this area and am saddened to feel like I am being pushed out by the City Government. Without investors, home values are going to drop over time and you will have vacant homes leading to even greater mischief and challenges. I hope you will reconsider these proposed ideas and make this a shared accountability, with more emphasis on ticketing those people who are actually doing the violations in terms of noise and parking. Thank you for hearing my perspective.

- 5) Short Term Vacation Rental Enforcement Recommendations

COMMENTS: I have owned a home in PGA West's Legends neighborhood for over 11 years as a second home and a permitted vacation rental in good standing which is managed by a highly reputable management company. I spend several months a year in my La Quinta home and I spend a considerable amount of time and money beautifying my home and supporting the neighborhood and city. I believe wholeheartedly in maintaining organized short term vacation rentals. I understand the challenges that go along with this, but I, along with over a hundred of my neighbors, believe the moratorium needs to be lifted for those of us in strong HOAs. Efficient ordinances can be implemented that manage our community health issues without putting a stranglehold on a valuable and law abiding group of homeowners. Eliminating bad actors is what needs to take place--not inefficient broad brush containment.

The email “subject line” must clearly state “Written Comments” or

Examples of some recommendations being proposed:

1. Reducing the current 3-strike rule to a 2-strike rule for noise and personal conduct violations is punitive. Getting the first violation is expensive already and allows owners to work issue... we have a vested interest to correct when it impacts our income. Keep at 3 strike.
2. General STVR Violations (Noise/ Parking) a. First Violation: \$1,000 b. Second Violation: \$2,000 + Suspension of STVR permit for a period of not less than 30 days and not more than 1 year. Too expensive and punitive.
3. Quiet hours shall be between the hours of 10:00 pm and 8 am. No amplified noise shall be permitted between the hours of 8 pm to 8 am. Inconsistent with HOAs regulations?

Remove the STVR Permit Moratorium from HOAs to align with other desert cities who are allowing permits to continue for STVRs in HOAs. There has been no data to support the extension of the Moratorium in our community. Our current STVR HOA rules and regulations are stricter than that of the City STVR rules. We monitor all guests coming in to the community, their cars and their activities. Where is the data that shows PGA West is a burden on Code Enforcement?
2) We are part of a coalition of PGA West STVR Owners who prioritize balance within the community and plan to set best practices and regulations and strengthen our compliance Security.

From the 10/20 City Council Agenda "Partnership Agreement with Homeowners Association and Enforcement City staff is working closely with PGA West Security & Enforcement members to share information on properties that have been issued a violation or suspension." Would this mean that if PGA West Security has confirmed a noise violation, the City would be able to verify it with the security company and issue a citation and strike against a STVR property? So get two violations?—one from the city and one from HOA? Double jeopardy?

CITY COUNCIL MEETING - OCTOBER 20, 2020 - PUBLIC COMMENTS BY RESIDENT LAURA REYES
STUDY SESSION ITEM NO. 2 - STVR PROGRAM AD-HOC COMMITTEE'S ENFORCEMENT RECOMMENDATIONS

Many of us have bought these homes as vacation homes with the STVR as an offset of our monthly costs. Because of the pandemic and given the restricted demand on hotels, vacations and travel, it has driven the demand for STVRs. Punishing all for the few.

5) Subject- As an Airbnb host and paralegal I understand how important it is to follow the laws and makes our guests and neighbors happy. In the day and age of Covid19 it is so important to be mindful of our neighbors. Many of which are working from home and attending school from home. Due to the uncertainty and duration of covid it is understandable that many people are on edge and therefore need peace of mind as well as a vacation. As a host I am sure to convey all these important details to each of my guests prior to their stay.

I also am sure to inform them about the noise curfew and executive order in place that prohibits outdoor speakers.

I think every host would benefit greatly from an in person training on how to communicate effectively with guests the expectations of the host, neighbors and city prior to their arrival. While still allowing the guests to enjoy their vacation.

Also how to have these difficult conversations without upsetting the guest and having them take it out on the review.

There are security features hosts can also install such as noise level readers that are app controlled. Security cameras, etc. This helps to discourage guests from misbehaving and allows the host to inform them quickly when they are breaking the rule.

Short term rentals are important to the city in terms of promoting the economy And tourism but also to the hosts who many wouldn't be able to afford the mortgages without this possibility.

If we are required to only allow long term rentals we are opening up our homes to potential squatters. This is a very real issue at the moment as the state of California has a moratorium in place relating to evictions there is no telling when it will be lifted which could result in many people losing their homes.

- 5) Subject- On elimination/terminating ultimately destroying the short term rental market

As a member of the community and a tax payer, I am concerned with the idea of destroy the market that rents Short term.

Our short term rental property has been a blessing to many especially this year. Most of the time they are traveling away for work, renting based on location and assignments. Others who are either an essential service member and can't afford the rates of a premium hotel and don't want to stay outside the city limits found short term to be the solution. Transportation issues come into place also to prevent them from having an issue with traffic during the high season and snow birds who frequent our small community rent short term. La Quinta is home to some of the best hot spots and attractions in all of the United States. The small gem of the desert has many reasons people are looking to rent short term and take part in our unique short term rental lifestyle. To eliminate that option is not only taking away money from the city but it puts people who rent at greater risk.

During this pandemic we have had a number of circumstances ranging from business to pleasure ensuring the highest standard of care and sanitation required by law. We have a team of onsite workers who are available 24 hours a day during someone's stay. Our Short term rental not only offers your community a way to pay their bills it also prevents businesses from closing by brings revenue into the Coachella Valley. Don't loose site of our future as this city is experiencing a downturn in the real-estate market and an important part of the way the next generation might make La Quinta their home is because they can turn their property into a short term rental during the slower months we see many leave for other homes in the summer. Many who choose short term rental instead of an archaic way of staying in an overpriced hotel are the future homeowners. Many are renting because they prefer the intimate experience of a home and also fear of cleanliness during theses unprecedented times. Short term rentals allow for top level cleaning and keeping a COVID 19 level of excellence needed to not only ensure the potential guests are protected but its company standard with AIRBNB.

If we are required to only allow long term rentals we are opening up our homes to long term problems. To people who might not be able to make their rent and also people who are not taking the COVID 19 virus serious. This is a very real issue at the moment as the state of California has a strict way it runs businesses during this pandemic but not on the way it governs long term rentals. Moratorium are in place relating to evictions during this pandemic that put home

owners at risk and there is no telling when it will be lifted which could result in many people getting in a terrible situation.

Please do not take away short term rentals. As a homeowner, tax payer, resident, and former Miss La Quinta I urge you to vote in favor of keeping short term rentals an option for your homeowners.

Thank you

Sincerely,

Vanessa West

Subject: Adams Street (Adams Park) Traffic Study

EXTERNAL: This message originated outside of the City of La Quinta. Please use proper judgement and caution when opening attachments, clicking links or responding to requests for information.

Dear Mayor Evans and Members of City Council,
Thank you sincerely for taking seriously the concerns about the Adams Street crossing to Adams Park that I expressed to you some weeks ago. I am very grateful that you took immediate steps to order a comprehensive traffic study and that the study was done quickly and thoroughly. I have read it and was impressed with the variety of options considered to address the safety problems we all recognize. Of the three initial recommendations outlined in the report, I especially agree with the focus on enforcement of the speed limit. I know it is labor intensive and, thus, expensive, but nevertheless necessary. It must, however, be accompanied by other physical changes to ensure safety of adults and children crossing Adams Street in the vicinity of Adams Park.
I feel the "road diet" plan may help mitigate the risk to pedestrians and, as a resident whose home backs up to Adams Street, I would welcome it if it can be effected without hampering the speedy response of the La Quinta Fire Department which opens into this very area. Further, I am concerned that, without a marked crosswalk, the "diet" effort will still be inadequate. I believe the crosswalks would best be placed at the intersection of Adams and La Palma Streets but if one were placed mid-block as illustrated

in Exhibit 3, I would be pleased that my wife and I and our grandchildren could at least find a safer crossing than at present. In either location, a crosswalk should be accompanied by the installation of Rectangular Rapid Flashing Beacons (RRFB) and the installation of flashing beacons reinforcing the 25 mph speed limit when it is in effect.

I do not feel that the investment in self-closing gates is necessary as the current small openings in the fencing seem to adequately discourage children from darting into the street.

Again, I am very grateful to you for taking our concerns seriously. I look forward to seeing steps taken to protect everyone in our community and thereby improving the appeal of living in the City of La Quinta.

Yours sincerely,

Daniel K. Church

Subject: Solar flash crosswalk

From Richard Grey:

This is a quick example of solar-powered stanchions with yellow flashing lights. They should cost relatively little compared to the traffic engineer's estimate of \$50,000. Painting the "U" shaped crosswalks (2 on north/south La Paloma and the main crosswalk at south Adams intersection) , putting up 2 safety barrier fences at the Adams-side park fence, and installing these kind of solar light stanchions would be a very effective, quick, and inexpensive solution to the impending tragedy of an accident at this much used intersection crossing.

Subject: Traffic Engineer's Recommendations at Adams St and Adams St Park

Date: October 18, 2020

Concerned neighbors in North La Quinta have reviewed WillDan Engineering's Traffic Study. Below find our concerns and recommendations for your use in developing your decisions:

CONCERNS:

1. There still are no "Crosswalks" shown with the Road Diet recommendation shown on Exhibit 2, even with the reduction of lanes it seems obvious a crosswalk is necessary. Yet a crosswalk is shown when relocating the crossing to Mid-Block (see Exhibit 3).
2. Although the Road Diet makes some sense, there are a number of reservations:
 - a. With only striped lane separations, there is doubt that motorists will strictly abide by the single lane and pass in the turn lane when not restricted by a vehicle in that lane.
 - b. Lane striping becomes dull and worn over time, thus not being as definitive as when new, thus motorists will less likely abide by the lane reduction. Any Road Diet consideration should include positive deterrents, i.e. true curb barriers at a minimum.
 - c. We do not see a need for a golf cart lane. There are virtually no golf cart lanes in La Quinta now. There are no golf courses nearby.
 - d. The population in the Valley is expanding. While the current traffic study reflects the road diet as not affecting overall traffic, how long will it be before that is no longer valid.
 - e. Most importantly, a Road Diet will reduce fire department response time with the narrowing of traffic flow. We do not believe anyone is in favor of this situation.
3. The need for the addition of self-closing gates is not necessary.

RECOMMENDATIONS:

Crosswalks should be placed at a minimum across Adams St at each La Palma Dr. sidewalk crossing.

The Rectangular Flashing Beacons make a great deal of sense in notifying motorists of pedestrians. It is a "clear signal" that someone is crossing. Additionally, there is electric power available from the caution light for the fire department. This recommendation continues to allow traffic to flow at the 25-mph speed limit at all other times in the four vehicle lanes.

A reasonable alternative to the Rectangular Flashing Beacons would be the installation of pavement embedded lights that are activated by the pedestrian when planning to cross Adams St. Willdan Engineering did not provide an estimate or suggest this as an option.

The park entrance/ exit at the corner of Adams St and La Palma Dr. seems sufficiently far enough away from play areas to not require gating. The other two entrance/exit locations are along Adams St. A single length of fence running parallel to the opening, requiring a need to go around the fence to exit would become a deterrent for chasing balls or running directly into the street. This cost would be nominal.

CITY COUNCIL MEETING - OCTOBER 20, 2020 - PUBLIC COMMENTS BY RESIDENT STEPHEN KLEMPA
STUDY SESSION ITEM NO. 4 - RELATED TO ADAMS STREET PEDESTRIAN CROSSING

In summary it is believed that the Crosswalks and Rectangular Flashing Beacons/ embedded lighting are absolutely necessary. The road diet is not viewed as a reasonable option.

Based on Willdan Engineering estimates provided, costs for our recommendations would be +/- \$ 40,000. A very minimal sum in the City of La Quinta's effort for its citizens' safety.
