***COMMENTS FOR THE CITY COUNCIL MEETING OF 21 APRIL 2020***

1. Meriwether Coral Mountain Development

Has any further public presentation been scheduled for this program, either in a town hall format or before the city council.

Does the city council intend to require a full environmental impact statement from the developer. This statement, if required, must include noise and traffic mitigation approaches.

2. CV Link

Has there been any movement on this item by either the CVAG or the city council since the Highway 111 Corridor report. If so, what - if not, why not.

Mayor Evans, City Council & City Manager

1st! Thank you all for how much you are doing for the city at this time. We are in great hands.

As a proud STR owner and local Cove resident. I stand with the city and will continue to comply with any STR direction.

That being said,

I would request some lightening of the STR restrictions. I employ a local cleaning service, I have a great relations with my neighbors and support many local businesses.

The 60 day minimum seems a bit too restrictive. I'm not sure why a 21 day minimum would not also be a good safety measure. We are not hotels but self contained homes. A 21+ day booking right now would most likely be people just like all of us and would stay indoors.

Additionally the economic toll is mounting and impacting our local small business community as well. I cannot even imagine the increased workload pressure it's also putting on the city.

Isn't there some-type of reduction adjustment that can be made with great guidance.

Safety 1st however Please Please take this into consideration

Lenard Dobrowolski  
A proud Local Business owner & Cove resident:)
