STAFF REPORT

AGENDA TITLE: RECOMMEND DESIGN FOR GOLD STAR FAMILY MONUMENTS

RECOMMENDATION

Recommend Design for Gold Star Family Monuments.

EXECUTIVE SUMMARY

- Staff received direction from City Council to request concepts for two (2) Gold Star Family Monuments to be featured as additions to the Veterans Acknowledgement Monuments in Civic Center Park.
- On January 6, 2022 an RFP for the design and build of the Gold Star Family Monuments was distributed to the City's Pre-Qualified Artists. The deadline for submission was February, 11, 2022.
- Three (3) submissions were received and are being presented to the Commission for consideration.

FISCAL IMPACT - \$30,000 has been budgeted for the design and construction of the monuments and will be taken from the Art in Public Places Art Purchase budget (Account No. 270-0000-74800).

BACKGROUND/ANALYSIS

Shortly after the 2021 Veterans Recognition Ceremony, staff received direction from the City Council to explore concepts for a Gold Star Family monument. The title of Gold Star Family is reserved for families of military members who have died in the line of duty and is meant to honor the service member's ultimate sacrifice while acknowledging their family's loss, grief, and continued healing. La Quinta has a long-standing tradition of honoring veterans by hosting the annual Veterans Recognition Ceremony, during which local veterans have their names, ranks, and dates of service engraved on the Veterans Acknowledgement Monuments that were installed in Civic Center Park in 2000. The City would like to erect two additional art pieces specifically honoring Gold Star Families as extensions of the Veterans Acknowledgement Monuments and moving forward, the Gold Star Family Monuments will also be featured during the Veterans Recognition Ceremony.

On January 6, 2022 an RFP for the design and build of two Gold Star Family Monuments was distributed to the City's Pre-Qualified Artists List. The deadline for submissions was February 11, 2022 and three (3) proposals were received. The submissions have been reviewed by staff and are being presented to the Commission for consideration.

RFP: Gold Star Families Monuments

The theme of this sculpture is an invitation to contemplate the profound dualities of Life and Death...

Designed to evoke reflection on the Regimentation ,Efficiency, Unity of purpose, Strength, Bravery and ultimately Sacrifice that a soldier gives for his country. These concepts are embodied in a large triangular steel panel with cut out repeated silhouettes of a US Soldier, stacked in a well ordered pyramid format, yet fallen at 45 degrees. The lines between the soldiers would give ample space for the placement of soldiers name, regiment and rank information.

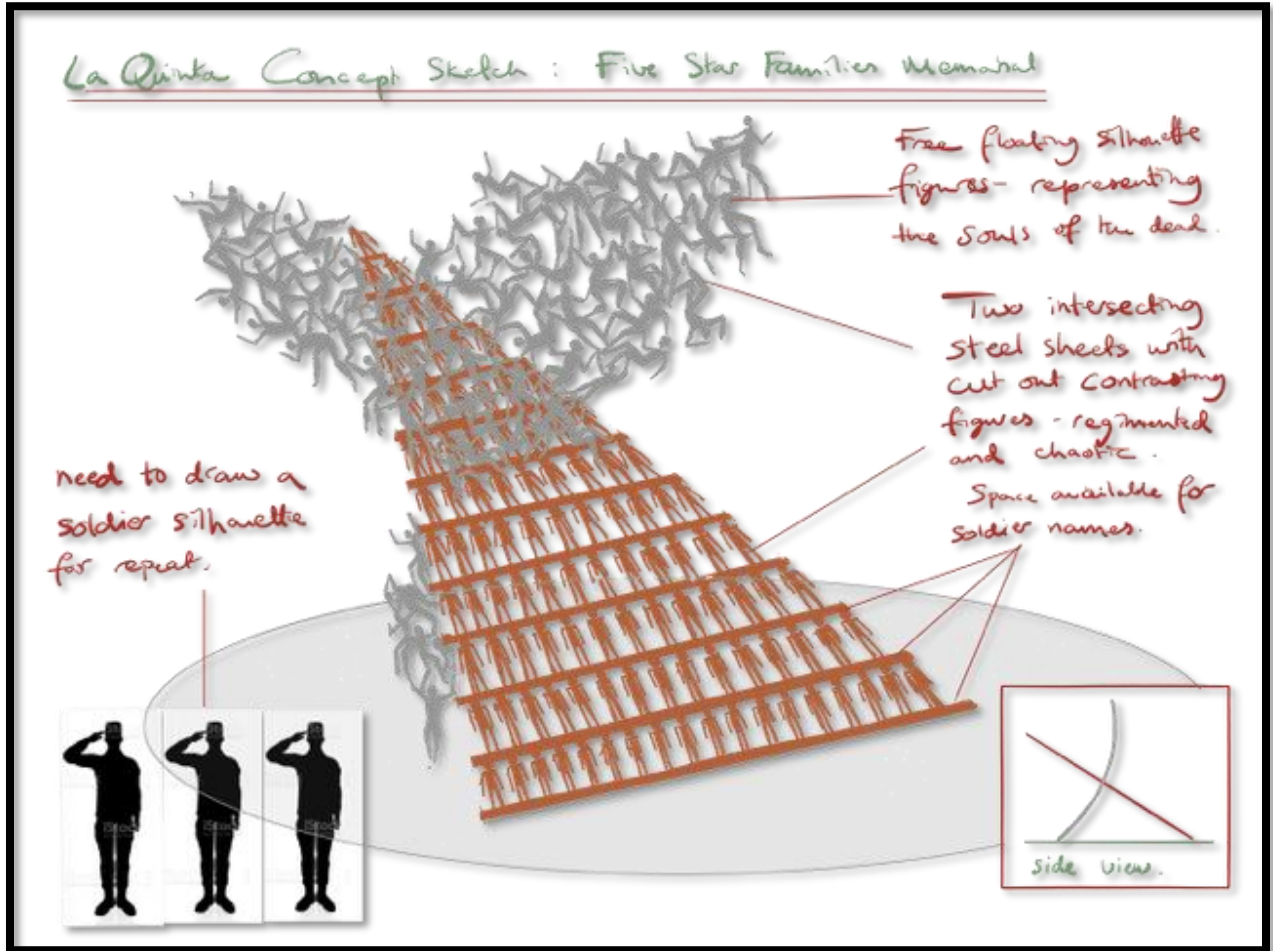

The fallen sheet is supported and held in position by a counter poised sheet of steel that intersects half way up the triangle shape. The supporting steel sheet is a misshapen triangle shape made up of a randomized flow of silhouetted human figures that represent the emergent souls of the fallen soldiers...arching up from the ground to lift the viewers vision as the souls seemingly float away into the sky.

The two intersecting steel plates would be painted in different colors, or patinas. The rigidity of the fallen soldiers will be contrasted with the curvature of the rising souls plate. These symbolic oppositions will, I hope, inspire and offer peaceful contemplation in the viewers mind. But what I hope to be the most powerful magic of this sculpture is the constantly changing myriad of human shaped shadows of both soldiers and their souls mingling on the base and surrounding pathways. These silhouetted figures will be given an eternal and animated life energy when illuminated by the sunshine through the day or at night by moon light...(or subtle electric lighting)

What I hope to offer the viewers of this sculpture is an illustrative and figurative interpretation of the soldiers roll and sacrifice. My sculpture is intended to humanize, immortalize, symbolize the fallen- yet risen soldiers of the 5 Star Families . The message is delivered with the simplicity of intersecting sheets of steel. From my research into military memorials of the past this ,non traditional, informal , non austere and far from somber memorial will, I hope, fit with the up beat, healthy and positive outlook of La Quinta residents.

Although I haven't had time as yet to research fabrication costs etc of such a sculpture, I have a hunch that this can be cut and made with relative ease ,efficiency and low cost by CNC laser or water jet cutters in the Palm Springs area, hence greatly reducing transportation costs form my studio in the Virgin Islands. The simplistic nature of the structure, would require minimal installation

complexities....and ,I hope, offer a lasting much spoken of and photographed monument that will attract attention and meditation by visitors to La Quinta for generations to come.

I really appreciate that the city of La Quinta is recognizing families and bringing honor to those who have fought for our country.

My father served for 30 years, he came back from war with PTSD which changed our family dynamics entirely, but he came back. Many pieces of my artwork have been derived from being in a military life. The loss of a family member in war is something I do not fully understand. I can't imagine the loss of what Gold star families carry with them daily.

So in order to understand a little better, I connected with a Gold star family mom. I wanted to understand a little more the perspective of a mom who had lost her son in war. I could only think of the perspective of a daughter to father in war.

It was hard to even know what to ask her or where to start. I honestly was scared to understand and ask questions. She was extremely honest and shared the importance of constantly having her son's name repeated and not forgotten. The conversation was hard yet very eye opening and helpful. I learned about her Son, Manuel who passed away in Afghanistan at the age 22. She shared stories about him and how the hole in her heart could never be filled. She also shared how extremely meaningful it is to have the monuments that engrave the names so they will not be forgotten. I showed her the sketches as you have here in the proposal. The order they are in, is the order that she liked. After sending her the first concept drawing, she said that her husband and her wept from the impact.

In this proposal I have three ideas presented for you. I know that it's supposed to be two but I thought you could have the options. Each proposed idea has a large Plaque which represents the Gold Star family flag. On this plaque the star is hollowed out and the names would be engraved and attached. There are three different concepts representing different perspectives of loss, pain and honor.

CONCEPT DRAWINGS

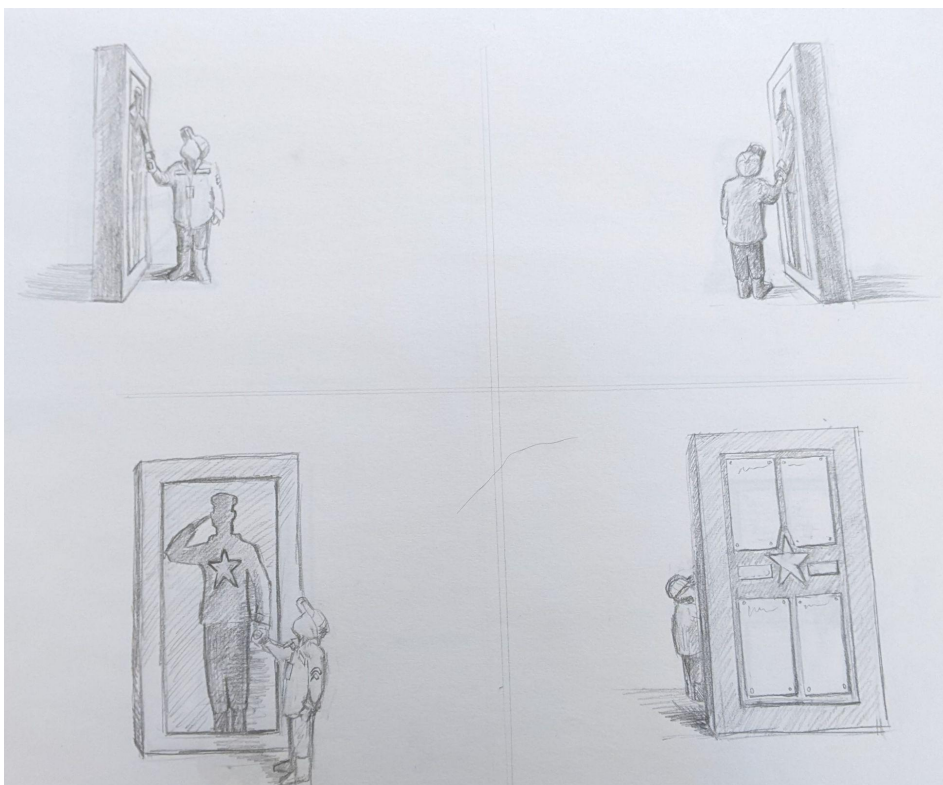

Concept Drawing

#1

This is a bronze sculpture of a young boy looking up to the ones who have fought for our country.

He is holding the hand of his father who has passed. He is wearing military uniform, which gives a sense of hope even through hard and painful loss the child has a hero to look up to. This Plaque represents the Gold star flag. The soldier is inset with the Star in the center hollowed out representing loss in the hearts of families.

Boy 3.5ft tall
Plaque 6ft x3ft x 1.5ft

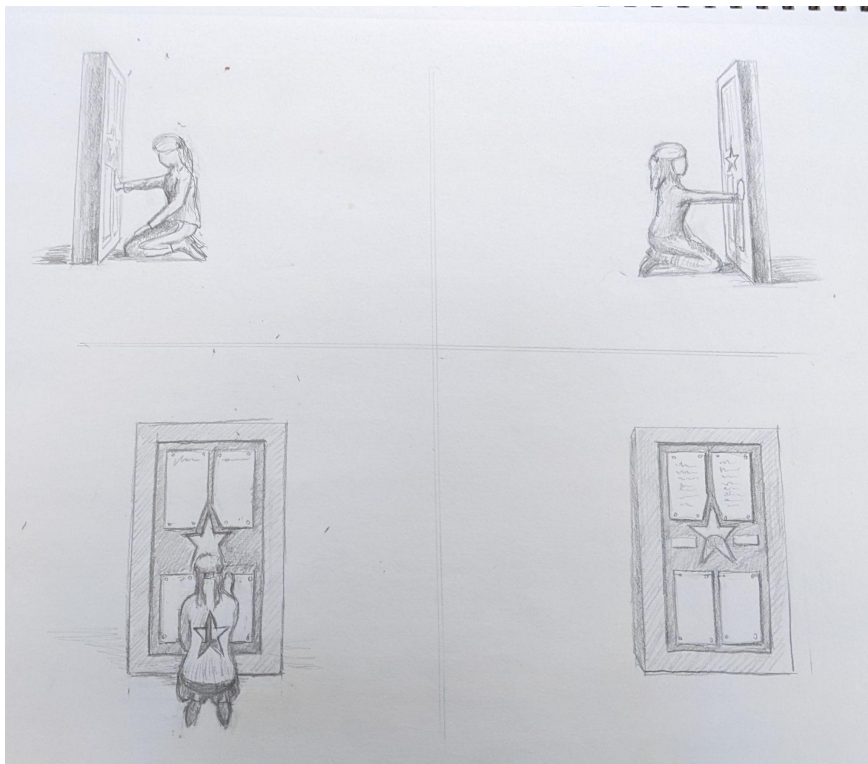

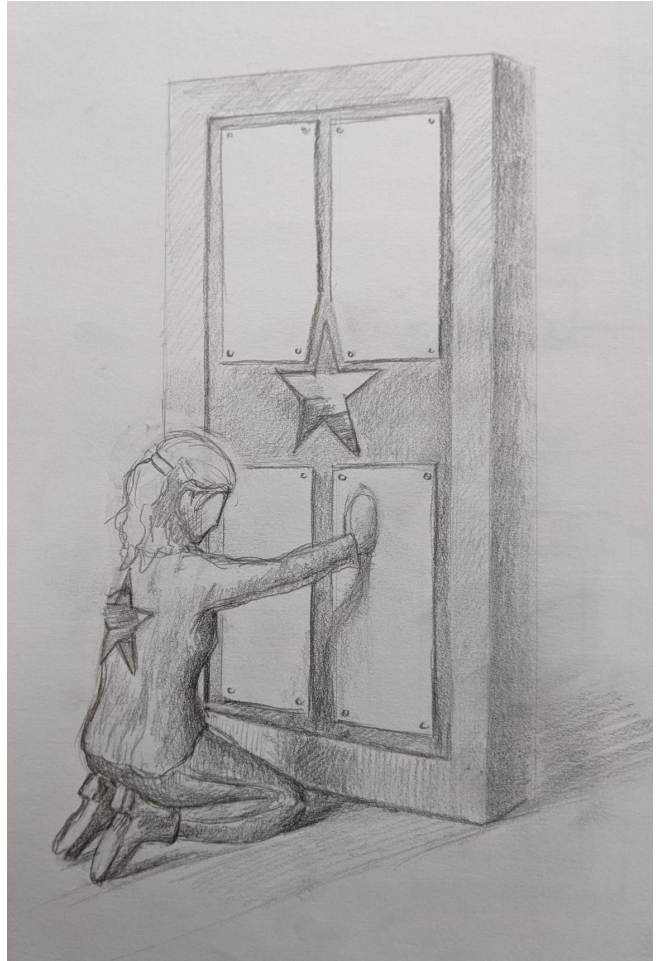

The backside of this plaque is where the names would be engraved on attachable bronze plaques just like the other mountain sculptures in the civic park.

Concept Drawing #2

This is the vision I saw after having a conversation with a Gold Star mom. Her Family lost her son, Manuel, at the age of 22 in the Afghan war. The plaque represents the Gold star family flag. On the plaque there are attachable engraved names on both front and back. Her hand on the engraved name while the gold star hollowed out of her. A hole that could never be replaced.

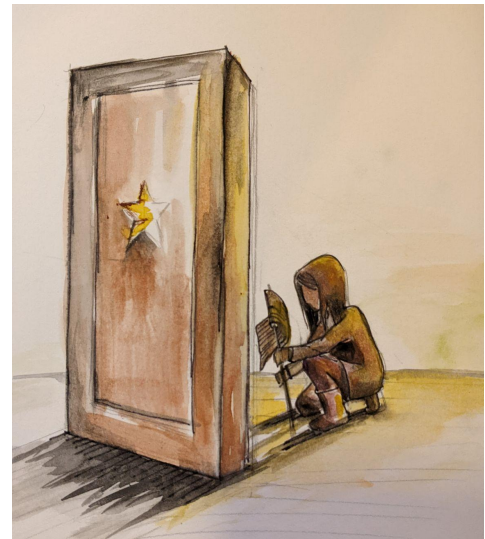

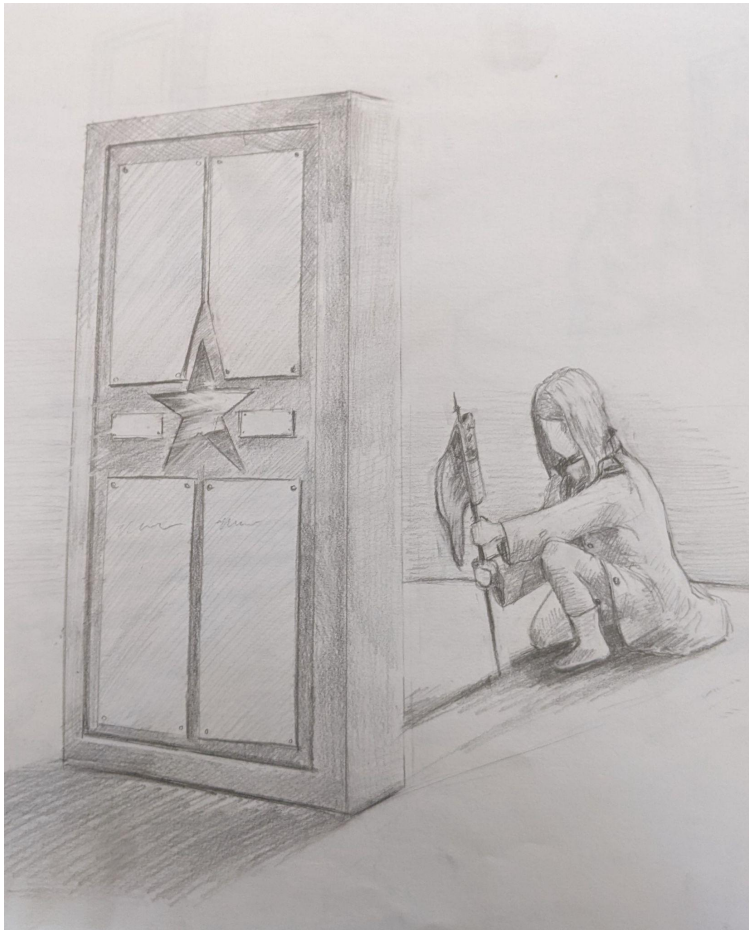

Mother ~3.5ft-4ft tall.

Plaque ~Plaque 6ft x3ft x 1.5ft

Dear Selection Committee,

Attached is a variety of options for the Gold Star Families Memorial's. A few of the designs were created with the existing memorials in mind (both materials and look) in an attempt to keep some similarities in the designs. These designs with the layered rusted steel also were designed to be budget conscious. Others are much more design inspired and more expensive mostly from a fabrication and materials side. I just wanted to give you a variety of different options of both design and materials for this project.

As an artist I am here to show you some options then help you find the best concept to fulfill your vision for your project. I am always open to adapt and adjust any of my concepts or change and or incorporate multiple ideas to fit your needs.

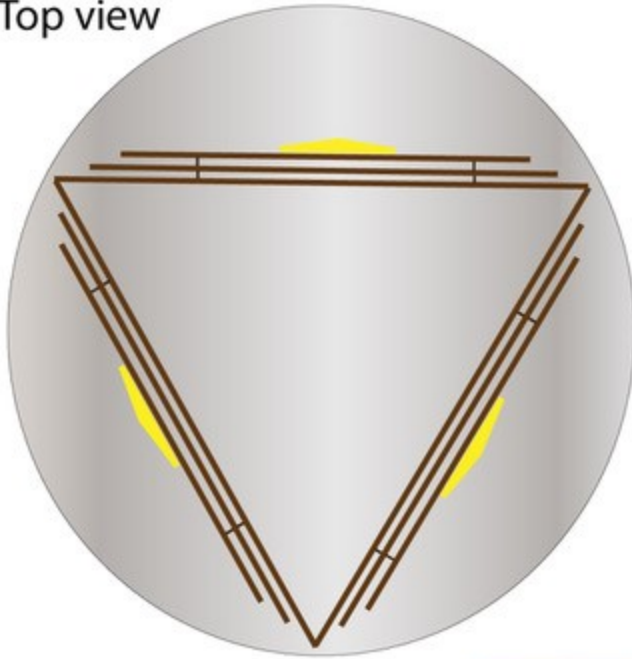

Thank you for the opportunity to share some of my concepts with you.
Please feel free to call to discuss them in more detail.

My Best

This is a 3-star option each star with 3 layers each providing areas for poetry and names of celebrated soldiers. The center has a 3D glass star with a saluting soldier cast into the back, the body of the work is hollow through the back so the light can shine through. The sculpture sits on a five-point gold star with angled areas to add more poetry or words of comfort in support of the family's and soldiers.

This calming yet beautiful stainless-steel sculpture with cast glass pieces has a saluting soldier cast into the design that will be viewable in the evening when the internal lights make it glow or during the day as the sun shines through it. The cast glass pieces can be as many pieces as the design team deems fit and removable to add names correctly to keep the integrity of the art. The size and scale can be determined to fit the site and budget and it can be either single or double sided.

The cast glass pieces can be as many pieces as the design team deems fit, but removable to add names correctly to keep the integrity of the art. This half star design version was created to adapt to the two-site option by splitting the sculpture and make the glass option fall a bit closer to the RFQ budget.
